To Whom It May Concern:

Amber Clark has worked at Prairie River Junior High since September 2006. During this time I have grown to know Amber very well. I have found Amber's teachings to be exemplary. Amber is often reading professional literature that she then regularly incorporates into her teaching. Amber is always looking for ways to improve her teaching and her students' results. In addition, Amber has been an active member of our staff. She actively engages in the work of the language arts PLC. Amber is an integral part of our YAP team. Amber has taken the opportunity to be involved in divisional projects such as the mentorship project and the GLA workshops. Finally, Amber has been involved with several extracurricular endeavors. She coached volleyball in the fall and has supervised overnight YAP trips.

In summary, I have found Amber to be an energetic, dedicated professional. Were it not for funding cutbacks, we would have offered her a contract for next year. I believe Amber will be an asset to any school lucky enough to acquire her.

Yours truly,

E.A. Berard
Principal, Prairie River Junior High School
