To Whom It May Concern:

I have had the pleasure of working with Amber for the past five months, in my position as an Educational Assistance. She treats me with respect, courtesy and is very supportive. We have worked well as a team.

Amber has showed true willingness to accept the responsibility of a position with very short notice. I have noticed her accomplishing challenging tasks with a positive attitude. She shows the ability to handle any conflict in a professional way with self confidence and leadership.

Amber has a wonderful rapport with the students. She is a dedicated and reliable teacher who goes out of her way to help students who are struggling with certain concepts. She goes above and beyond the call of duty by offering extra assistance before school, during lunch and once a week after school. Her ability to connect with students and her talent at teaching is truly superior. Amber's teaching style caters to both written and verbal learners.

I feel Amber is extremely organized and follows through to get any job done well. She is well liked by her colleagues, good natured, enthusiastic and humorous. Amber would be a definite asset to any school.

I recommend Amber Clark to you without hesitation.

Donna Ernst
